Northern California Coalition

Dear Friends:

Many thanks for your letter of April 14 regarding BDCP. I certainly agree that the ROD statement: *"Solutions will not solve problems in the Bay Delta system by redirecting significant negative impacts, when viewed in their entirety, within the Bay Delta or to other regions of California"* should remain state policy.

BDCP is completely dedicated to using science to fulfill the coequal goals of water supply and environmental quality established by the Legislature, and achieving those goals will be done in keeping with the ROD statement.

Best regards,
