

## **Biography**

**Peter Brostrom**

California Department of Water Resources

Peter Brostrom leads the Water Use and Efficiency Branch for the California Department of Water Resources (DWR). Some of the Branch's major programs include water management planning, model landscape ordinance, water use efficiency grants, the California Irrigation Management Information System, statewide land and water use measurement and analysis and implementation of the 2018 Water Conservation Legislation. Peter is in his 18<sup>th</sup> year at DWR all within the Water Use and Efficiency Branch. Prior to DWR, Peter managed a grain farm in Sutter County, conducted cropping systems research at University of California, Davis and served as a Peace Corps Volunteer in Burkina Faso. He received a B.S. in Plant Science and M.S. in Soil Science from UC Davis.
